Generation loading tower

Generation, the leading supplier of safe access solutions has designed a unique systemised loading tower to ensure that the storage and distribution of heavy building materials can be achieved in **total safety**.

s a f e t y

A maximum loading capacity of 4 tonnes

Simple to check and inspect

A 3.6m x 1.6m large storage and working area, guarded all round, complete with a simple safety gate

Design drawings, calculations and erection guides for ease of checking and weekly inspections

Full compliance with all relevant codes and H.S.E Directives

e c o n o m y

fast to erect and dismantle with only one stillage required for storage and transportation

Galvanised system components ensure minimum loss, damage or repair

Uses standard 3.9m scaffold boards

Takes 2 full packs of bricks or blocks (up to 2 tonnes each)

v e r s a t i l i t y

Incremental lift sizes of 0.5m

Ideal for bricks, blocks, mortar tiles, panels windows etc.

Can be varied in width and height

Combines with any chosen system or method of main access
